

Dustin Stewart

Senior Environmental Loss Control Consultant

517-237-1940

Dustin.Stewart@AFGroup.com

Dustin joined the Loss Control team in 2025 as a senior environmental loss control consultant.

Dustin has over 14 years of experience in environmental loss prevention and loss control – and has overseen various facets of safety efforts, including completing loss control assessments, site inspections, corrective actions and post incident investigations. Dustin has experience in insurance coverage for pollution liability, workers' compensation, commercial auto, site pollution and general liability. Some of the industry specific risks he serviced include environmental abatement (asbestos, lead, PCBs), landfills, recycling facilities, chemical manufacturing, oil and gas, environmental remediation (mold, biohazard, soil, groundwater contamination) and fire/water damage.

Dustin earned his associate's degree in Environmental Science Safety and Health. He has also completed numerous trainings, including CPR/First Aid, OSHA 30 general industry and construction, OSHA HAZWOPER and OSHA HazCom/GHS train the trainer. Dustin is currently pursuing the Associate Safety Professional designation.
